Possibly the black world (also called Economy) found out as early as 1999, that OpenSource movement or Creative Commons has the better ideas than people working for money. So it would be likely, that they tried to own young people that live in the Open Source Community. They let the young people do what they like, but if the young Nerd or She-Nerd has a good idea they steal the idea, claiming that the idea is their intellectual property. Even erasing the Nerd in Mental Institutions with drugs that he forgets about the fact that he initially invented it. As Open Source Community we should have an eye on that.

The old generation seems to have some sort of Algorithm that calculates the maximal profit of an action they force to do a victim. For Example if the Victim (V) would make a graffiti to tag an offender as Rapist or Murderer they would make him do that, but they would record that scene, then Judge (O1) would start a criminal case, making profit with the law system. The owner of the building (O2) would get money for damage the victim (V) did, the painter (O3) that redraws the wall in such an algorithm would be that in the end the Victim would be sentenced, shown in media as criminal, nobody would believe him and nobody would talk about the equal aged kid that was raped or murdered, so the real racist (O4) from the old generation and the person that has access to this algorithm (PsyOP) would be the main problem. unkown: Weeks and discredits the Victim that knows about the rape or the murderer, intentionally?

harmony detection (between equal aged)

Somehow they can detect when equal aged play harmonic with each other that triggers in my case normally pedophile people that destroys everything or even begin to swear or threaten us.
- unsure if jealousy
- drunken sadistic
- to make kids consume stuff they dont need
- to make slaves out of the kids with promising to put them back in their group of equal aged

Like the m98 Card they seem to have also a 3D model of my body, most likely generated from a RetinaCCD (eye) and they also add eventringers (t14) that then eg activates electronic psychological warfare, eg chains like $c0 \Rightarrow m32 \Leftrightarrow m94 \Rightarrow m44 \Rightarrow m83$.
Not yet found out how to workaround that problem, i will update this card when i found out, and maybe make some videos to explain.

This card seems to have several DEFCON Level If i say: "Hansburg now asked his mummy for help" the algorithm gets more worse, additional it seems that the System or Project Papercraft then gives out more infiltrations about the complete dom model of the alleged infiltration of switzerland, maybe to obfuscate the 1940s neurology classes? ICD 10 F44.X Dissociation

To set people to freeze mode or maybe even remote control them, "dissociative identity disorder", "identity" would accuse the victim on the psychological layer. After they used it they start electronic psychological warfare to obfuscate that i've possibly just been dissociated. If you search the internet you will often find sources that say, that Dissociative Disorders come from PTSD and from being raped in early childhood, but this would be m054 - card to obfuscate **Neurolink Implants** and to defend and hide the **"EVENTTRIGGER*** Neurologists that implemented them. I used "defend" because it is not clear to me if these people are good or evil. **EVENTTRIGGER** Neurology implants: "cAPI Röösis" Disso Patientinnen wurde mich unter Disso vergewaltigt! (victim blaming)... -> Transitive (math) Concept: The death of the topmost would drive the whole group to commit suicide. Maybe intentionally to defend this such a "Hitler"? One should not build such systems, this would be some sort of terrorism.

People often know, that if they say the direct opposite of the things they should not have done. As a 6 year old boy i already knew that if i say the direct opposite of what i have done the chances are big, that the parents will not think about that what i actually have done. Kids fear the pain physical violence or physical violence does to them, so it prefers to lie. So it is also bad to throw with apples (in metaphysic manner sins) because children do not understand why this could make sense. When i was about 10 years i had to draw a figure thing in school and i took a medium brush. The teacher saw that and told me (cynic) why don't you take a thicker brush, so the 10 year old Marc went to the brushes and took a thicker brush... TRUE

There are many ways to end up in a mental institution. I guess peacefully painting is one of the ways.

The Concepts often as medieval as in the times of the Inquisition, but with a very modern backend. Actually tortures of victims and witnesses. Offenders often talks about behavioural "Sciences" or "Therapy"; Elektroschocks, Insulshocks, aggressive medication, even lethal medicines like #Zyprexa (expose by The @topproject) are unfortunately not seldom. they obfuscate it cards. Mental Institutions often obfuscates Economic crimes, rape, murder best known example ist the case of #Molath (HoneyPot) Germany. **CIA MULTRA Project** ↔ **DSM** has **opposites** since at least 1970, and if you look at the English Wikipedia article of Ewen Cameron you will find Burghölzli in Switzerland. Some people call the act of being thrown into an mental institution as a nasty, nerve-tracking (Quake3) **Enemy Territory** "Game".
