

# Slums

**Inventor:** ???

**Year:** ~???

Hackers-Cardgame is just a problem of the rich-mans-world. I spent 500.000 \$ to defend me against the attacks of Urs, Martin, Astrid and Hansjürg. Imagine how many people i could have helped in the third world or in slums with this amount of money that was wasted to defend myself. So maybe this Hackers-Cardgame help others that they dont need to go the same way. Even i needed the money eg for a card, i though could spend a few thousand \$ for charities. One should not force people to spend for NGOs's, but if you have enough money, why not helping the poorest people on the world. And i bet many of such slums are subject to illegal human experiments. # Beer

**C1**

**Inventor:** Sat  
**Year:** 50 B.C.

amine massive k then also feels greater risks .  
Cortex damage a lobotomy in small f

"Helps" to reduce out of which the person feels a superior feeling than usual. In the action

In the medium / long

lobotomy in small f

# Weed

**C2**

**Inventor:** God  
**Year:** 100K

Releases serotonin / dopamine, the unfiltered smoke is bad for the lungs, the arteries... It is currently an illegal self-medication. From medical point of view without consulting a doctor it is not the best idea to smoke weed. Because of the sedation the processing of consolidation of the things experienced in his life is skipped, which will lead later into a psychosis and reduces the resilience of the individual. Often used to obfuscate illegal human experiments, for example m\* cards. Can have a pain-relieving effect. Maybe helps against Epilepsy. Consumers show more ignorance that can help in some stress situations (but consider m49, m50 card). Additional the person that smokes weed seems to focus more on the non-verbal communication.

# COEXIST

**G1p1**

**Inventor:** comparative religion sciences

Evil Systems, or better some few people in big systems like the CIA and some older people tend to separate society eg. left-wing from right-wing or Christianity from Islam from Judaism, white from black, ... they try to make them fight each other while those who made them fight take their goods. Maybe we should warn the younger people with the message: **COEXIST**. As a Christian for example learned a lot from Islamic or Jewish culture. Notice for many people today science is also some sort of religion. Those people who make profit out of wars would maybe want to destroy this card so that they can play on their dirty game. I please all religions to distribute and protect this sort of COEXIST cards.

# public class Object

**object** ist die Schablone mit welcher alle anderen Schablonen hergestellt werden, bzw sagt man „von der alle anderen Klassen (Schablonen) erben“

public class person  
protected class fahrzeug  
private class object

Berechtigung

**https://0x8.ch/HackersCardgame7**

eine eine Vorlage für eine Klasse (Schablone) kommt

schlüsselwort dass jetzt

Byte □ Zahl1 Zahl2 Buchstabe;

Bit □ Zahl-Methode To Zahl-Methode To Zahl-Methode To Zahl-Methode To

**ा ०**

**Year:** ~1993

**Inventor:** Alan Kay

Tell the computer to define an object, which is a element (a12) where the possible values are defined and stored in Memory (see also struct / C++) but there are also "functions" that are called "methods". A class/members/methods can be public, protected and private. There are static members/methods

```
struct speicherbereich {  
    int Zahl1;  
    string Zahl1;  
    int Zahl2;  
    char Buchstabe;  
};
```

**Byte** □ **Zahl1** **Zahl2** **Buchstabe**;

**Bit** □ **Zahl-Methode To Zahl-Methode To Zahl-Methode To Zahl-Methode To**

# Hysteresis Remanence

**ा २**

**Year:** ~1990

**Inventor:** James Alfred Weing

Describes the persistence of an effect after the causing force stopped. For example in (electro-)magnetism. Old electron tube televisions tend to become magnetized after a while which resulted in a bad picture, so they have had to be "degaussed". The same principle also works for psychological effects, see m15, t10, m19, col. m9, t11 or Clark Hull's Formula for Emotions.

# Black use Cases

For example to burn bad behavioral patterns into a Hacker to sue him and waste his time. Time that he could better use to defend younger people from being owned by the CIA

# Ad Busting

**ा ३**

**Year:** ???

**Inventor:** ???

Exactly what one should do in front of an Apple shop. Great street-art and if you do it with blackboard chalk it would not even be damage foreign property.

I guess the person who did this would love if we dont know his name, since pissing off a 1 Million \$ Company would maybe cause some problems. If you are the creator of this work, let me or us say that it is really great and we would love if you would give us a license for this picture for the following generations

# Save Energy

**ा ४**

**Year:** ~2016

**Inventor:** Greta? ❤

This is not yet implemented, but we should look at how much energy each person wastes. Car Driving, CO2 intensive Goods, Heating Temperature... The less one wastes the more timeslots and the less false informations and spam one gets on the mainframe-avatar. When my computer Room is not use it's switched off by a physical switch.

# To Save The Planet. Thanks to Greta for telling us older people that we MUST ACT NOW.
