**Inventor:** Unknown  
**Year:** ~???

If a person draw symbols it's his psyche is maybe beeing scanned for vulnerabilities to later exploit them. The drawn on the lower left "m59" created in Mental Institution lobuscated by Movie "The Manchurian Candidate" Königsfelden and shows my whole life since i was child, one symbol for each scene i (or dataretention) remembers. If you compare those with symbols of Christchurch & brevik amok, one would maybe see that mine is more analytical, where i try to find things out, and the others are more of one symbol for PR news, in any case if such things happen there is possibly third person / algorithm that influences. In any cases remove the weapons, no matter if he / she would later commit suicide or runs amok. Different Technology Cards, 0-day. If You can rescue him/her "game" is not over, the person that scans will just take the next victim!

## Law article

**Inventor:** XXXXX  
**Year:** ~???

In the preamble of the Swiss Federal Constitution is written: In the name of God. We can therefore assume that for everything that went wrong. People produced an law article for, and over the years they also produced laws and regulations that benefits a single supplier or cartel for a specific application, (for example, Swiss fire protection regulations)

And of course there are also good things in the law, for example having law that specifies how bridges should be built to prevent things like Ponte Morandi (English: Morandi Bridge). Unfortunately, many people ignore the law that leads to many innocent deaths. When Justice System is illegitimate or is abused by the powerful, citizens loose faith in the law that leads to more problems. ↗ Whistleblowers

## nightly Installation of irrelevant Information(s) (global) loop on Neuralink

**Inventor:** XXXXX  
**Year:** ~???

IMHO there is a nighty global (generic/personalized) algorithm on the Network / Mainframe, that installs irrelevant false information to your brain. Or it primes (Priming Psychology) you to buy crap you don't need. The next day installed information is recalled and makes you buy spontaneous crap you don't need.

**Prerequisites:**  
- Stimocceiver, Neuralink or US4877027... (\*, b\* cards)  
- Psychology Knowledge (eg. p1, p7 card)

The Psyche of 1980s+ people normally survive without all that junk like Car, House, Garden, traveling around globe... Everything i need is equal aged friends, food (potatoes & eggs = all essential amino acids), cheap vitamins, working Laptop & Backbone & Mainframe, maybe some Sextoys, a private place where i can live, recharge and sleep. medical care and the girl that promised me to be true forever

## Project Paperclip ("innocent" Clippy)

**Inventor:** XXXXX  
**Year:** ~???

In videos you will hear often "project paperclip" but seldom a detailed explanation, "project Paperclip" definitely would be a honey pot or a database trigger, so be careful if you google it. Wikipedia talks about 2200 German Science Specialists and it talks about eg. about V2 Rockets (that is a strong image and maybe supposed to induces fear). We guess that those 2200 Scientists built some sort of Mainframe with a virtual model of the world in 3D or at least from the civilized world. There people can add eventtriggers (t4), or use Cyber-fluorescented-Pen (m84,n85) to manipulate the masses, to stick things to documents like people do with paperclips, to understand, no explanation needed, and the users that use it are then used to target for example whisteblowers that would like to expose that system.

## spontaneous discharge

**Inventor:** XXXXX  
**Year:** ~???

spontaneous discharge seems to be a voice keyword to pop accuses from equal aged girls against the boys. They are done in office jobs (project paperclip, see a17 card). So the old generation keeps the problems active by not sending them to the accused boys, because the boys would try to change their behavior since they would be attracted by equal aged girls. And maybe many of the accusations are wrong, but by not sending them the accused boy can not tell his part of the story (auditor et altera pars). So both the young boys and the young girls are victims of the older generation, as already said it would be very likely that eg. 1960s parents Cyber-Rape 1980s girls and just use the 1980s boys as scapegoats. The Keyword then activates all accusations against a boy that is whistleblower or whitehat hacker, while the 1960 say "wash my hands in innocence". The keyword obfuscates by sexual integrity things, see image,... isolating the accused from the group does not impove the situation...

marc@debian -d -v -v -v

**Inventor:** Unknown

My wannabe Hacker Name ist landau. If one would lock at people as some sort of software or program you can start on a shell, one could put himself or others into debug mode (-d) and in verbose mode (-v) and since i'm very verbose its maybe (-vv). I do this intentionally so that other people, especially younger people understand what i think, and to correct or learn from my behavior. Some people also say that this is insane, but i guess in my case it is a feature not a bug. Satan does the same but only for electronical-/psychological Warfare.

## Twin Towers 9/11

**Inventor:** XXXXX  
**Year:** ~???

I guess a lot people knew that the twin towers will fall. In my opinion very likely that the people from CIA knew. If you look at m95 the "war on terror" would have obfuscated perfectly that the CIA began to undermine Switzerland since 1999 or even since 1968. This two Rastai ARTWORK Collection glasses i got from Werner Eismann @ ABB Flexible Automation AG, ZH Altstetten in the year 2000. When he gave them to me as a gift he said something like: "This Glasses will be precious in the near future". With just a bit of imagination one could the two glasses that were in a nice blue cardboard as the twin-towers with the holes from the airplanes. When i Asked Urs / Astrid Blum (there was a time when i trusted them) in 2002 what they think about my theory. They said "no, no of course nobody knew about that the twin-towers will fall". What they said seemed to me like a very cheap lie. As soon as one began to question the official version people begin to discredit or even attack.

## SocioPsychology RootKit for Mental Institutions

**Inventor:** Satan  
**Year:** ~???

Situation in H7.2 Mental Institution Königsfelden. There are a few older patients that tries to make the young patients more psychotic to make it look more legitimate to give them Anti-Psychotics. There seems to be one Master Pedo-Patient that commands the other pedo-Patients". They also influence the Psychiatry nurses maliiciously (making the nurses angry on the young patient, b&t1 Card) that normally ends up that the Young patient is normally forced to take intelligence-reducing drugs.

Just in case im Right with this card, it would be important to find all the young patients that got victim of such a sondersetting (german) and help them with equalaged good people.
