I guess there is some sort of electronic fluorescent pen where the offender can mark things in text I wrote. The principle is quite simple, I guess one could make terror threat or a death threat out of every single page out of the bible if one would mark some words on the page. Not tested so far. Workaround would be to use color your own in the text you write, it then would still be possible, but much harder for those that uses this dirty trick.

Technically one could implement that with things like t1 card, or if you could know how many words a person reads per second you would for example send the word you would mark with a high frequency sound just above the threshold... or you could add a blinking effect around the graphicals card or even in the screen it would be quit hard to prove that. ## INK BLOT TEST FIXATION

m1

Inventor: Hermann Rorschach  
Year: ~1900

Sold as a "phantasy" test with formless blobs for children, normal adults and for mentally ill", in fact it distracts the questioned (fixation) so he not focuses much on the questions. A Hack would be to add an eq. RFID or LC circuit on the backside of the paper and to activate small Active Denial Systems or Hum Noises or treble Sounds around 15000Hz below the conscious perception threshold to let the questioned act as a lar since his face would show stress because of the active denial system that was activated. Using an inkblot test als Lie detector would therefore fail in some cases.

## Revenge Porn

I would not do revenge porn, i would just commit suicide, and i guess all true christians would do the same, or if they would have autism they would commit suicide too. But the relation between the two or three people would just obfuscate that the whole revenge porn story just obscures that they try to produce \*cAPI\* -fU- people that run suicide or even amok. So it was a good decision 5 years ago to delete revenge porn. Or would maybe also obfuscate that the Father \*cAPI Urs\* of the girl that was betrayed or that was thinking that she had been betrayed is pedophile \*cAPI RevengePorn\* and just wants to force his daughter to kill the boy that was untrue, or if it would just be photoshopped or deep-faked prove that the boy was untrue.

## Separating one sheep from the herd

If we use sheep as a metaphor for kids or people, satan tries to **separate one sheep from the herd** as a hostage to blackmail the other sheeps (m104) or if this does not work they use the next dirty trick and say the "black" sheep is eg. a "Rapist Terrorist" (m41), card, then they would even kill the "black" sheep (m46), eat its goods and then blackmail the other sheeps with the **dt1** card telling them that it's their fault because they helped separate the victim. If they can make the other sheeps agree in judging the "black" sheep with **m37** card the group would feel guilty (even when they not killed it) so they normally would declare a new "black" sheep that told the other to separate the victim, **and the dirty game would go on an on this way**. The Term **Sheeple** even makes the victim think that he / she is better than others that could stay in the group...

## Skeleton in the cupboard

Many Social Systems have a Gypsy Cemetery. Initially there would be "only" one dead kid, gypsy... Maybe the **one, that was just ignored or forgot by the group**. Some older people use things like the **m37** card and tell the group to judge the equal aged, then using **dt1** crad. Even if group said no to m37, and if someone from the older generation pushed that red button the group would still feel bad. An additional problem would be that the olders selects the next scapegoat **"to protect the group"**. The falsely accused equal aged would probably find out about that dirty **"game"**. So you would have a transitive (**math**) situation where **all the older people would have to attack** the youngest asking [**the right to many**] questions. It seems that if you ask the right questions at the **aledged murderer plays multiple such cards**. += Eventtrigger
