

## Quadrrophonic

<https://0x8.ch/HackersCardgame7>

**Inventor:** JVC

**Year:** ~1970

Maybe directly built into the apartments walls, if you would play a **gun-shot sample** (see card m21) could drive the victim paranoid. Quadrophonic or even Octophonic in building with multiple floors would cause the mind to interpret the sounds as authentic and **make neighbours fight each other**

**Building ControlUnit with 1990 Technology:**

2x Gravis Ultrasound Stereo  
4x LPT & JBL / CEN-DAC (see t9 card)

**Inventor:** Dr. B.F. Skinner

**Year:** ~1953

Castile Wolfenstein (Muse Software) was maybe not the first 3D Engine, but maybe it was the first enduser 3D Engine. Like a **SkinnerBOX** (t2 Card) but "innocently" wrapped as children's toy that uses **invasive** (eg t1 card) or **non-invasive** (eg t12, t8... Cards) technologies. Such games will be **unidirectional** or **bidirectional** (eg. b4 card). Similar to a network monitoring system possibly with Plug-INS, which are partially not even accessible by the user, or as a separate add-on that just evaluates things like **Quantum Inserts**, **Turbine**, **Tornado**, **Game**, **fun**, **therapy** or "theray", **game could also generate psychological profiles** like **Biggs**, **Mayer-Briggs** or even **MMPI2**. For example i bought a game, joined the server, saw the first enemy that had his back to me but i could not shoot him as a **vegetarian**.

For Therapy (a2 Card). But unfortunately also to make people aggressive to force them to fight against each other :)

## 3D GAME-ENGINE (eg. CryEngine)

<https://0x8.ch/HackersCardgame7>

**Inventor:** Silas Warner

**Year:** ~1981

Etymologically, the term police is derived from the Greek τολκή, polis "city". It referred to the entire public administration (today as "construction police" and "fire police") outside of Greece as the fashion word of the Romans. Maybe abused as Chessman of the authorities, who commit the most murders. See also "Americans 58 Times More Likely to Be Killed by Cops Than by Terrorists" Violence, riots, sometimes conflict rather escalating, often intimidating, biased often preserving only the power of the upper class, we should teach all cops **inductive reasoning**. (can you find the intentionally placed bug in m55 card?)

## PoliceCar (Stimulus-Reaction-Habit)

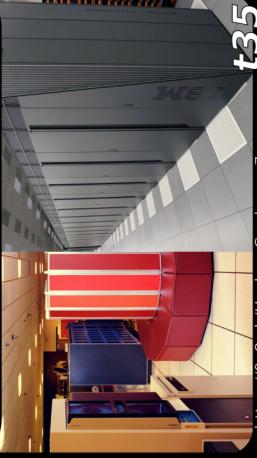

<https://0x8.ch/HackersCardgame7>

**Inventor:** CIA

**Year:** ~???

... it installs all the nasty cards to the people in Switzerland **"Central"** "intelligence" **Agency**. First it **would not be central** but distributed second it would **maybe not be that intelligent**. It seems that CIA begins to blow up his PsyOps, after one found that **PsyOp creates multiple Death Circles** (see mos\* cards) it would be likely that the PsyOps have contacts to the CIA network. "CYBER Blitzkrieg" (we translate what the CIA would like to say it are the >>Nazis<< um the Germans and no, the cia does not actively obfuscates qFire, quantum inserts, TURBINE and TAWOL) But we guess that there are some sort of batch jobs that own systems globally, not only computers or mainframes, also routers, handies or the Swiss INTAF. Who writes the **interfaces**? Kerberos? We need to find out what devices can access Stomociever, Neuralink.. Wirst case most enduser devices have some sort of SDR devices that can access t\* cards. In this case we need to find out what devices, second thing what we could do is preventing things like NROL-39 Kraken... third thing we can do is to teach people Psychology

## Group Policies

<https://0x8.ch/HackersCardgame7>

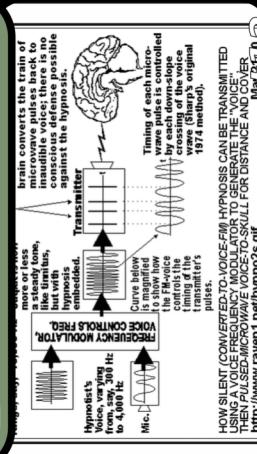

**Inventor:** Microsoft

**Year:** ~???

On Windows you can deploy group policies to a complete domain. People that are some sort of wannabe hitlers would enjoy it to impose their will upon others. I felt also cool when i was about 25 Years old that i am the "Master" but in fact i was just the scapegoat. Not quite sure if those who deploy things like a16, m50... to people that are a complete group of people are just older people that are using some similar software or if eg m50 card is deployed on all domains, eg by the NSA/CIA/DSMS.

Giving a young whitehat hackers drugs like zyprexa or illegal drugs (GFYS Matrix Red and Blue Pill) would let them to think, i must have been infected when i ate this.

## Microwave Hearing (Frey Effect)

<https://0x8.ch/HackersCardgame7>

**Inventor:** Allan H. Frey (Cornell Uni)

**Year:** ~1961

"He Hear<sup>s</sup> non-existent voices, **inhabita**", invisible communication channels, **pulsed** microwaves directly by the cochlea. The exact frequency found by scanning through the possible frequencies, if the victim puts his hand to his ear ("tritinus"); **Automatic Behavior Recognition**. Was 30 years not patented until 1989 under US4877027. Technically it would have been possible to do this maybe already with electron tubes (~ 1900). Psychological Perspective: people that abuse such technology would keep that secret and previously labeled as a "Schizophrenic" the victim is completely defenseless and it is likely that they induced **suicide** or **annok**. In combination with e.g. a loop recorder see also co2 Card the perpetrators often caused permanent damage in the psyche of their victims; #PTSD (#Verdingkinder / #Schwadenkind / #Slaves)

## Antenna (Wasserflue)

<https://0x8.ch/HackersCardgame7>

**Inventor:** xxxxx

**Year:** ~????

As seen in Battle Filed Bad Company 2, the m-com station is shown as small box, but it would be more likely that these are big antennas like the one on the "Wasserflue" (in Küttingen near Aarau) Maybe one should find out the power the antenna uses and how strong the "drum-antennas" are and if it would be enough power to activate implants (maybe just a golden wire with lambda/in other Antenna card) to drive people insane or even drive tobias moser to commit suicide with his military weapon (as far as we heard)

NOT YET PROVEN

t33

**Inventor:** Allan H. Frey (Cornell Uni)

**Year:** ~???

If a person has to do all day the same, it is likely that these moves are burnt into his psyche (not even an implant required) if you would give a stimulus (eg. high noise sound at 15kHz, 16kHz, 17kHz...) you could link this move to a stimulus (t2, t11, formula see m76 Card).

So it would be likely that not only people like me that worked in robotics (t22 Card) are affected.

It would be the same like m70 card or in combination with m70 card.
