

## Classical conditioning

## Glass Sphere

<https://0x8.ch/HackersCardgame7>

**Inventor:** Ivan Petrovitsch Pavlov ~1905

To record and play sounds digitally. (cards: c02, t10, t12) You can change pitch, bass, trebles, snip single words and glue them together like you want. It is also possible to use other mathematical models, e.g. Fourier analysis/transform to analyse the samples or to modify them. Simplest variant, if you play twice the same with delay of 0.2 seconds to achieve a echo effect. If you create a physical models of human voice you could even fade between 2 different voices (see t21 card). To make music, manipulate voice recordings prior to negotiation, "Pavlovian Dog" experiment... but also a very cool kids toy.

**Inventor:** ???

Thanks to the guy who has drawn this, I really like that image. Look at the a14 card. I don't think that all witches are black, there are maybe also Fortune tellers, occultists, esoterics, fairies, trolls, non-medical practitioners, Satanists(!) ... So **bricking all the spears** would maybe cause more problems than it would fix. But giving the good ones that are not older than 1978 some cards could maybe help to find out if he / she / it joined the **dark side** or not.

**Inventor:** ???

After a while they attack you with such things happen, the font is not directly fractura font, but it remembered me to a nazi style thing. I found this car by coincidence. Twitter about it then possibly Urs B. used sent the tweet to those people that then found me "coincidental" and hunted me down with Medulla Signals implant. >> **cAPI** Insert: Urs now transmits that because i wanted to kill claudine which is completely nonsense. I will never kill claudine, i would just kill myself if she brook the promises we gave us two. << the person just inserted the things in arrows, based on Jus Prima Noctis Rape Is possibly the person that programmed this group of alledged Neo-Nazis.

**Inventor:** ???
