The main problem if chastity belts (no matter if real or virtual) is how to get rid of them. Tools does not seem to work here. <insert>maybe marc just not have created the ra2 card.</insert> <unknown>unfortunately you can "not" buy women chastity belts</unknown><me>unfortunately you can not order such for women, because you would get again ma1 card</me>Braking up with the promis man normally give their first girl could maybe help for virtual chastity belts but because of the m38 card, that means if the usPrimeNoctis Suicide Death bot was only virtually created software the girl i love and i promised to be true forever would have the same situation and then for sure it would be real. Can not verify so far if this is real or virtual.

Often the most gifted Hackers are owned by system like military or police or secret services, kept as slaves or hostages and forced to produce (Cyber-)weapons. Not only Hackers also Scientists. Bot some of them can defend and it's not only Julian Assange. Those bad Military Systems begin quite early to find the most gifted kids (see Card dtz, Switzerland)
Like in the Movie Tron 1 he would be one of them that could help two younger people not break up, but unfortunately he would also know, that if they dont break up satan could not blackmail them with "Was net er 2?" so they would be in danger for the rest of their live. Since the Roswell-incident, the CIA not just started to cover illegal Human Experiments with Alien Stories, they also actively hunt those, who could be able to leak details about the abusive system. In this case "Man in Black" or "Enemy of State" (just outdated technology stuff so they gave it to the Faraday Cage...) Farady Cage is not really a Faraday Cage...
greetings to Will Smith, bzw. the movies are cool for young boys except that detail.
Point No.1: No it is not sexism, the boy would be more stubborn.

Point No. 2: Don't buy Assembler Books when your 14 Years old, see dt2 card
Point No. 3: Nor the girl would be on the dark side

technology enthusiast Scapegoat

**scg6**<https://0x8.ch/HackersCardgame7>**Inventor: XXXXX**

Since at least 1974 Hollywood shows technology enthusiasts as Terrorists, criminals... for example in the Movie "Juggernaut" where the "Hacker" wants to blow up a passenger ship. So this mindset is in the heads of our 1960s Parents, except they are themselves technology enthusiasts. We guess that's one reason, why the older generation sees us 1980s that like technology and also like the "Hands On" from Hacker Ethics as Criminals. But in fact they only project their sins upon us. It's populism since a technology enthusiast can maybe destroy the word but also save the world. If a 1950s Parent was 30 years the 1980s person, he maybe would agree to give this role to a 1980s person, for not beeing the scapegoat anymore, but still having higher access codes than the 1980s and possibly much more sins that are beeing used to make the 1950s attack the 1980s scapegoat.
