

Fixation (psychology)

m22

Inventor: **xxxxx**

"Fixation" (German: Objekt Fixierung) concept make young people focus on more on things than on humans. So it becomes more easy to manipulate the young people. Additional you could even make the young kids follow a evil symbol system, Patch: Kids learn also Psychological Concepts

CARD WAS CHANGED IN MENTAL INSTITUTION TO MAKE FOOTBALL CLUBS ATTACK MARC

For Kids: playing / learning (toys), sports, coping strategy, ...

Touring Complete Avatars to spam Justice System

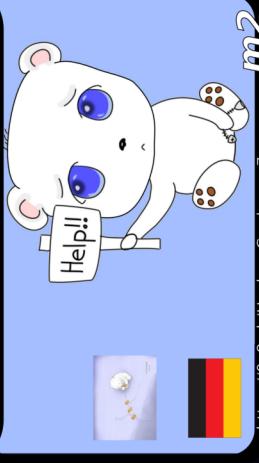

m126

Inventor: **xxxxx**

Pfisterer uses touring complete avatars from Police Officers, Judges, Victims to spam and obfuscate the investigation against him. "m42*- The NSA/CIA "maybe" even infiltrated eg swiss police communication systems like polycam. All countries have an eye on such important systems, since they should be main target for NSA/CIA. So definitely a SIGINT/ COMINT Problem, so he tries to drive Whistleblowers / Whitehat Hackers / witnesses to thighs like m22, m44... to distract from COMINT/SIGINT problems. Maybe even a default TURBINE, TARMOL, Quantuminserts Psy-Module, Pfisterer blows things and people up to distract from the main problem (COMINT/SIGINT) we know about thanks to Snowden. Level 2 of this algorithm is that those avatars are being activated only by the Whistleblower, Whitehat. Witness says something. So lets talk as a chosen plaintext attack. The speech part that imitates voices could be some neuronal network, training eg. with youtube data? https://HoneyPot?16.00927.pdf

Cuddly Toys Fixation

Inventor: **Franz Steiff / Steiff GmbH**

To hug, to cuddle, clinical use e.g. in the case of children that have been sexually abused to recognize (object fixation on the plush / coping strategy, "clinging to the plush") when the victim is overtrained with the examination => pause!

Multifunctional: to hug, to throw at the head of other people, coping strategy of kids if parents don't care enough about the children, or as a present to show solidarity: **sk1 card Problem**.

We "only" want to fixation

Inventor: **xxxxx**

There are "some" drove controlled old people (in my case i mean 1865s and older) that switch to a Mode (co1) where they say to themselves "I need to help this young girl or boy" but in fact they just follow their egoistic desire (m73 & b2 Card) and the nonverbally let me help you" should obfuscate their victims, but they also lie to themselves because they would actually know that what they are just doing is wrong. Saying things like "don't run after me" may seem like a good idea at first, but it is not, it just makes the zombies more doubtful and since you seem to have the answer they just get more annoying and stalkes you even more. But because they are such "well-behaved" old Pedophiles they setup their hypocritical face: "just want help you, it's all for your best"

IMPORTANT: IT IS MAINLY A SIGINT / COMINT PROBLEM. IT SEEMS THAT THIS IS SOME SORT OF ESCALATION FUNCTION IF YOU WOULD LEAK THAT CISPS WORK FOR NSA (even in Switzerland) AND ARE OWNED BY THE CIA WITH THEIR HABIT TO RAPE YOUNG GIRLS.

Role-Toggler

m42

Inventor: **xxxxx**

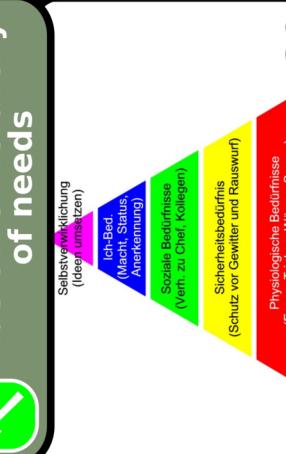

Often the those in power have some sort of spell to virtually dress their **victims as offenders**.

It happened very often to me, that i've been hurt or almost killed, but in the end the curt ruled against me. And there are also many female rape victims that have observed similar things.

So in our opinion swiss justice system is not just, or never was. Or at least those judges i had. Mental Institutions in switzerland are also not the best place for victims.

So if anybody has good ideas to fix this problem please add the ideas to this repo.

Maslow's hierarchy of needs

Inventor: **Abraham Harold Maslow**

-1943 To press People with finances and existence fear. The backend is possibly a massive server-infrastructure that has access to almost all financial systems like SAP, Navision or Abacus, "possibly" all owned by the NSA / CIA. It is in fact this can even be abused as Weapon. But it maybe just obfuscates the t27 card. So it would still be unknown why People that run amok or suicide have been killed. Possibly not even the highly praised Swiss Banks can secure their Systems.

Can be used to understand the motivation of people and make them to go the right way but also to oppress people (which is unfortunately often the normal use case)
