Like a plush: to hug, pet and care for but more interactive.  
Clinical use: as a coping strategy, e.g. you can buy a shy cat for a scared child, which then helps the child to analyze his fears without focussing directly on his own fears, that then might would lead to a cognitive dissonance & avoidance behavior instead of analyzing the things that caused the fear (Anonymous ↵ Case Dusty: where I would expect, that Kenny "learned" violence e.g. from his father, so in worst case Kenny is a victim too, and if Anonymous would have beaten the shit out of him then someone maybe wants to play a d11 card to the whole anonymous crew, unsure so far)

## strapping psychiatric patients

Mental Institution strapping psychiatric patients. I could verify that in 2007 when they strapped me in Mental Institution Konigsfelden, Aargau, Schweiz. The good people in mental institutions they tell that it's just that the patient does not commit suicide. But in fact it is mindcontrol and torture, see Deprivation. Worst case... they even shrink that would rape strapped young female patients. If you google "Psycho-The-Rapist rapes patients" you would get 1010000 hits on google search. As we said on other cards, this normally just obscures technology cards like t1. t28...  
the sad fact is that if a patient (no matter if male or female) would have been raped in a mental institution he or she will try to commit suicide the rest of his / her life. We did not find a way to fix that behavior.

## sealing wax Glitter (Bomb)

Old pedophiles need to control" what daughter's write in their diaries, letters, and of course "they need to control" the daughters sex toys -- just in the daughters interest, that's what they claim, but in fact that sort of parents are pedophile, im at least 51% male but have similar issues, they render samples on objects in my apartment. They add Eventruggers like: "The open book on your dining table was poisoned while you were away", they open render things on things in my bedroom. A workaround found is sealing wax. If you seal your apartment bedroom, they still render such things on your goods, but if the seal isn't broken you know, they cheat and "just" render it on your goods (Psychological Warfare) The Loop "Neighbour Smith or Brother Dominic was it" would intentionally start a local conflict with a scapegoat that would distract from the real criminals. <https://www.youtube.com/watch?v=JoyApkDXM> **UPDATE:** one day after i released this card they added an eventruggers on my door that distract me to break the seal without checking. And drew some sealing wax into the elevator (Psywar). This would be another hint that the criminals are old people with a lot of time.

## "Enlightenment" with Drugs

When i was 20 Years old 3 "friends" used peer pressure over a period of 6 months to make me consume Ecstasy in our Music Studio below a (stereotypical) Gym. We also watched the movie "The Matrix". In the end they succeed. After that Scene t1. card me, that i now must "enlighten" also the equal aged Girl Rachel Sc. (they wanted me to do, so i would have been guilty of ruining someone's live too and then i did not) Then the t1. t2. t6. t11... Cards also told me to put some XTC into a bottle in my parents fridge. i did almost, but i did not. I guess the suggestion they used was, that my parents have a less technical / scientific background, so i wanted to "enlighten" them as a gift. It was even the same substance i already consumed, so i was not thinking about that i could have poisoned them, but i possibly would. Relevant: intended / implemented to fork to other people. so switzerlands Society is under attack since before 9/11.

## Induced Avoidance Behavior

The CIA seems to put disgusting (igitttt) Pictures on relevant informations (Cold War-era Intrusion detectors... This normally leads to avoidance to inform yourself about what they inform the people who know and abuse this dirty trick. And it would be likely that eg in the picture, in the EXIF Data or in a system where only agents have access would be less disgusting content but more informations. <https://twitter.com/CIA/status/1189250463276908548> (it would also be likely that this tweet would disappear or would be changed... but you really don't want to click that link) **And most likely the link would be a HoneyPot for the good people.**

Das System verkauft das was das 1980er Kind sowieso tun würde (z.B. das erststellen dieser Karte) dem 1960er Pädokriminellen als "du hilfst dem kind, dein kind muss dir dankbar sein dass du es steuert"... Wenn das kind dann mit suizidversuchen beginnt sobald dieser algorithmus auch bei ihm so eingebettet wird muss von pädokriminalität des 1960er elternels und auch von mishandlung durch den entsprochenen 1960er eltern ausgegängen werden PFISTERER: SPRENGFÄLLEN AKTIVIEREN < pfisterer versucht so mit terrordrohungen die Taten der 1960er Täterschaft weg zu "therapieren" (also zu vertuschen) also terroristisch einzubinden um das was offen steht zu überschreiben also pfisterer droht kaltblütig mit sprüngeln, und da z.B. der Offizier Urs Blum allenfalls sprüngstoff aus militärbeständigen hat schuchten das alle vorzüglich eins. Allerdings hat der Pfisterer die 1950er die 1980er vergewaltigen versprochen dass die 1950er die 1980er vorsätzlich Amokläufer dürfen?? Pfisterer produziert mit m107 vorzüglich

## Law article

In the preamble of the Swiss Federal Constitution is written: In the name of God. We can therefore assume that for everything that went wrong. People produced an law article for, and over the years they also produced laws and regulations that benefits a single supplier or cartel for a specific application, (for example, Swiss fire protection regulations). And of course there are also good things in the law, for example having law that specifies how bridges should be built to prevent things like Ponte Morandi (English: Morandi Bridge). Unfortunately many people ignore the law that leads to many innocent deaths. When Justice System is illegitimate or is abused by the powerful, citizens loose faith in the law that leads to more problems. **Whistleblowers**

## Death Circle Circle of Live

Inventor: Satan

Year: ~???

There are some sort of Death Circles in many subcultures (m37 Card). The circle can be out of individuals or out of companies / Juristic Persons (Maniframes) For some kids its just glorification and fun Some kids really think it would be good to kill the whistbleblower / whitehat 'hacker' because the parents show them the fake image of him cyber-raping innocent women on the "inner eye" (t1. t11...) and enable an active denial system (t15. b1. t1) against the kids but in fact he does not cyber rape anybody. Some kids think it's just some lesson for the Hacker for not become Hitler, or to help him not to become to powerful, "Scherbenrichter" Some kids just play because they fear being under attack too as long as they are younger than "the one" this is ok. Unfortunately the PsyOps kills 1. out of 80 and then dt1. card is played against the circle of kids and also against the parents circle to make them do what Satan want them to do
