

m113 **Limbic System Vulnerability** **Year:** ~???? **Inventor:** **xxxxx** **Description:** Since we are genetically still over 90% identical to our ancestors that were driven by the limbic system (Neandertals, Monkeys, RUST™-Bots) our brain is vulnerable eg. to fat food, sex, kids slides. This is used by advertising industry, but also "used" for imposing your will upon others. Michael Foucault: "Human body and the human disposition in terms of the priority of sexual desire" (Euphemism). A Sociopath does not care about the sexual integrity of others, his primary focus is to sell crap and he would also abuse the SSC BDSM card and ignore resulting consequences. m38 -> co1 & t1 & b1 -> m32 -> a16 -> m37 -> ct1. For example take a folder with evidence for torture and add 50% BDSM-Porn Images to it and nobody will talk about the evidence.

m114 **Footprinting your own EEG Data to defend against m112/m113** **Year:** ~???? **Inventor:** **xxxxx** **Description:** It seems that they can identify the thoughts or words with the stomach over 70 years or the Neuralink. So map or at least to get used to an idea of your map of the content they use against you just think of random things (people, objects, sex toys...) when they enabled the automated psychological warfare. So the system would transmit the objects, vocals and images linked to this specific keyword. Using paper and pencil to draw the map, even pre-printed templates or both simplifies this task. So they still could enable it, but they would lose their psychological warfare algorithms and of course "nobody" would leak them. So we maybe have some sort of an **Nash equilibrium**.

m115 **SSC BDSM** **Year:** ~???? **Inventor:** **xxxxx** **Description:** Save Sense Consensual with Attitudes helps to cope with rape and to think about own body/sexuality (pain NOT violence) to understand mechanisms behind it with ONE faithful mate in the same age. If you would betraying your mate, pain-game would change into violence and then suicide or even things like amok would be likely! To help erg. rape/pedophilia victims to get healthy again (takes decades), as well as for big "children" to understand this part of the psyche. Also helps to find out if parents educated them or trained them like a dog. <insert-At least one Medic MUST be around when doing only **SSC BDSM** otherwise it would be irresponsible! Knowing about Anatomy maybe helps to make the Slaves feel more PAIN</insert> Google "NSA Porn Room" you would maybe find out that they use the sexuality as vulnerability, patch vulnerability, NSA/CIA is non-consensual exploiting this vulnerabilities. So BDSM would maybe fix trauma, see also reparenting. BDSM in Groups and with a lack of Moral and ethical values would end up in hate, violence or worse. In this case it is used to train mil at1 cards.

m116 **induced "self injury"** **Year:** ~???? **Inventor:** **xxxxx** **Description:** After a traumatic event like death of someone in family or after a rape (or just 38 card) people often show the behavior of "self injury". And if someone does self injury they can put him into a mental institution. In the mental institution he or she gets tons of "antipsychotics" that make stupid, lazy. If the victim is whistleblower or **whitehat hacker** that tries to show the public things that go wrong to fix those things putting the whistleblower in a mental institution would be **great** for the **offender**. Maybe they even play m41 card to make the group think the self injury is because of them, finally playing the dt1 to blackmail and silence the whole group. Workaround: just have plastic knives in your household. There are victims that suffer much more (**below my image**) than i, if you know her, have a good hart and are medically gifted AND about the same age please help her.

m117 **Pottery Crafts** **Year:** ~???? **Inventor:** **xxxxx** **Description:** Guiltless been thrown out of the University, then they put Marci Jr with his (non-existent) as a "good" lesson to correct his (non-existent) arrogance, de facto it was psychological warfare to break(point) Marci Jr with pointless works: go, do a bit of crafting you loser" = revictimizes of his childhood. 14 years before Snowden Leaks Marc already found out about the infiltration of Swiss Company Networks, which then was proven by Snowden in June 2013 irrevocably. TNX Ed. Technically the Network could be secured, but the Network installed also malware and backdoors in the psyche of relevant People like politicians, Shriniks, Computer Scientists, Science People. To fix that too will cause tears, therefore never forget the a15 Card

m118 **Karma SystemDynamics** **Year:** ~???? **Inventor:** **xxxxx** **Description:** Karma seems to be abused for malware that is autopoietic. That is transmitted eg. from Neuralink to Neuralink. Or after such a "fishing crusade" @hoerr talked about in "To protect and infect, part 2". If you report such an attack to the people that should have an eye on that, the malware tells them that **the person that reported it is the offender**, even if he is 1880s generation, it would be likely that these sort of attacks are generated not from a single person but from a bigger network. In Mental Institutions often the system tells that one will be infected with bad karma by other patients -> **avoidance behavior to help**. I think **Karma** would be great, that if you really try to help people that this would give you some benefits.
