The people seem to add psychological bombs to the victims or the whistleblowers. And seem to sell the igniting device or codes to those that would go to prison because of that leak. So they might be some sort of business or trading platform. As soon as one would become a whistleblower all the small criminals would see a busines model, and the people in power would of course buy the access codes for this sort of psychological booby traps. What the do to me since at least 2002 is definitely not fair play. Aber das wissen die doofen Weiblein • schon lange: "Shadows of materia condense" The most powerful terrorist in Arau seems to buy all the booby traps and ignite them at once, so he definitely wants my death. And all those that provide him with such sort of psychological booby traps would then be part of the terrorizework. **Autopoeisis would be a problem here!** Maybe it are some alcoholics that have themselves that have access all(?) to communiction systems

Age Based Access Control

Normally **CiSSP books** explain, that there are **Mandatory and Discretionary Access Control Systems**. Unfortunately the Person that implemented it to t1 card decided to give older People always more access rights than younger people. **Older people can access the younger people even if they are naked or otherwise vulnerable, so the CIA creates Acceptance for the Global Surveillance Nightmare.** This leads to (cyber-)rape, makes older people using younger boys as weapons and don't care about if they die or would run amok during the "mission". Exactly those things led me to do things like m32 or m44 (but so she knows im still ture), if you look below the image in this or m32 card (svg) then you would see, that there are some victims that are much more affected i.e. The Access System should based on moral & intelligence, since a morally intact intelligent person would not risk lives just to watch naked kids. Separating one sheep from the herd

If we use sheep as a metaphor for kids or people, satan tries to **separate one sheep from the herd** as a hostage to blackmail the other sheeps (m44) or if this does not work they use the next dirty trick and say the "black" sheep is eg. a "Rapist Terrorist" (m41, card), then they would even kill the "black" sheep (m46), eat its goods and then blackmail the other sheeps with the **dtl** card, telling them that it's their fault because they helped separate the victim. If they can make the other sheeps agree in judging the "black" sheep with **m37** card the group would feel guilty (even when they not killed it) so they normally would declare a new "black" sheep that told the other to separate the victim, **and the dirty game would go on an on this way**. The **Term Sheepie** even makes the victim think that he / she is better than others that could stay in the group...

Old pedo Parents need to control" what daughters write in their diaries, letters, and of course "need to control" what they claim, sex toys -- **just in the daughters interest**, that's what they claim, but in fact that sort of parents are pedophile. Im at least 51% male but have similar issues, they render samples on objects in my apartment. They add Eventriggers like: "The open bottle on dining table was poisoned while you were away", they even render things on things in my bedroom. A workaround I found is **sealing wax**, if you seal your **appartement**, bedroom, servCase.. before you leave, they still render **such things on your goods**, but if the seal isn't broken you know, they cheat and "lie", render it on your goods **Psychological Warfare** The Loop "Neighbour Smith and Brothe Dominic was it" would intentionally start local conflict with a scapegoat that would distract from the real criminals. **UPDATE:** one day after I released this card they added an eventtrigger on my door that distracts me to break the seal without checking. And drew some sealing wax into the elevator. (PsyWARI). This would be another hint that the criminals are old people with a lot of time.

It seems that they can identify the thoughts or words with the stimociver + 70 years or the Neuralink. To get the map or at least to get used to an idea of your map of the content they use against you just think of random things (people, objects, sex toys...) when they enabled the automated psychological warfare. So the system would transmit the objects, vocals and images linked to this specific keyword. Using paper and pencil to draw the map - even pre-printed templates or both simplifies this task.

Money

The usual rhetorical automatism would be "Everyone has his price" even judges are for sale. We think "Everyone" is a rumor, i for example would never intentionally do harm to a younger child, not for 100'000'000\$. But many young employee would ask relevant questions about illegal things company does they would fire him or more worse things like they did to Mollath (Germany) that not even worked there. Many rich people can easily hush murder and rape with money. They even buy the judge that wears a price tag instead of moral and justice.
