If they want to make you believe in a lie they sent you eg. by Mail, Twitter or Facebook... there is some sort of pattern matching algorithm that then starts distributed over several channels Twitter, Google, Facebook, Mail...) making you believe in that lie. Since if your brain gets the same stimulus like the lie you initially got, it begins to feel comfortable with that lie and the possibility that i believe it is bigger. Here you see an example of an implementation with Jaro-Winkler algorithm, the same possibly works also with images, speech and videos. Such an algorithm would definitely imply a big player like CIA/NSA.

btw: Great visual representation of Jaro Winkler by the way!

After Family Bloom attracted me with a computer course (m75), after her daughter (m38, m83) took my heart, after they throw me out (m45), after they put me in a mental institution (m19), after i worked for 18 years most of the time 16h not just 8h like normal people do, after they used me for many things as scapegoat (scg*), after they used me as lab rat (t19 t11, t15) ...

Thank you that you showed me who i really am, and if Claudine broke her promise, i think it would be completely ok to own the complete Kanton Aargau with my blood, and please remember to throw my dead body into the garden of Blooms, Aarau and please call the press, or the sunshine press to make a big story to force the people in Switzerland not to do such stupid things...

guilty conscience driven mind control

Every Morning when i stand up there are new loop-recorder patterns and LRU-Card Patterns played in my appartement (with eg t19); they try to overlay what i say yesterday my imperatives, my maximes, they would like to destroy my world view to feel less guilty? The PsyOP let the 1960s do sins and told them to ok, but we can show, that they are not only killing autistic people, so they rewrite what i said the day before for feeling that bad, unknown: they even pay for. Antagonizing worldviews, question myself, why they dont just leave us alone? unknown: warning to all the honest sheeps, manipulative techniques would imply that they know they are using them they want to make you guilty too (girls mos2, boys rage and mos3). i mean the circumstance that they are using anti-psychotic drugs without anti-psychotics, i mean the circumstances that they are using manipulative techniques would imply that they know they are wrong, maybe they just protect the kids they rape or want to make them rape younger to for not feeling to guilty, dogmenraum, illegal paedo snowball system, a sin you swallow for the rest of your live, freshmeat

If you did not consume m133 Card, they unfortunately put old pedophile people into your bed apart from, on your body sometimes just an avatar, sometimes real connections (m98 & m99 card) torage you, or to make you run suicide or amok, but in fact the NSA / CIA wants to distract you from SIGHT / COMINT and Concept Knowledge. During this scenes they activate things like b1, t1,t5 to make you even rage more. Maybe Mail Attachment. It is abused to force witnesses or juries to do false accusations. It is ok for me, if younger people don't help me or older people in the face of attack, but putting an innocent person like me into jail or a mental institution is not ok. In this case i / we can not protect you anymore because then you are already part of the problem. We we could rescue all the aged and younger people, since we know that now, we need a method to protect the complete social network (COMINT /SIGHT) of the whithat hacker / whistblower and maybe hisher shrinks if they are younger: "Firewall1?"(Vorsatz), "everybody is good enough" (later m133)?

"Anti" psychotics

If i don't have anti-psychotics, there is some baseband load off things that makes me psychotic, and something happens like my face suddenly gets burned (see m121 Card) then there are many reasons given why this happened or how this happened. Often only junk and spam that would lead you into the wrong direction. Take a pencil and paper and note all of them down, some of them you can eliminate because there are mistakes in that reason, some you can not, but if you note all the clamms and then it would be easy to find the pivot element (Pfisterer&Jrs) since people tend to use often the same chess pieces and moves.

RAPIST TERRORIST

1. they declare you to a Rapist or to a terrorist
2. the say the small wannabe Hitler in your quarters that you raped a girl even when you have not
3. the wannabe Hitler attacks you physically and calls the police and says them to put you in a mental institution. The offender was a a ranitor in Rombachtai13. Beware of him. I will remove this Name when the pictures are back AND he Livit AG told the Police what they have done to me. Increased the PBS of the Whithack Hacker / Whistblower. Generated reason to put the whithack into a mental institution or bugging him with m37. Dehumanized, so bad people think it would be legitimate to do human experiments with the victim. Worst case the old generation created the 20 years old "Rapist Terrorists" to get rid of whitehats and spm. feminism, but not yet sure about that. It gives the group that judges him a meaning in life, and to defend against that would waste his time -> dtl card unknown: and it would be likely that eg. the vather of his girl is (Cyber-)Pedophile, so this is maybe a scg card too.
