Es gibt viele Filmseiten (Z.B. Bones - Die Knochenjägerin) wo das Thema Menschliche-Pferde in sexueller weise thematisiert werden. ev auch Porno. Pferde reitet man mit Gewalt, Peitsche zu bis die Psyche des Pferdes gebrochen ist und es gefügt ist. Würde man dies nun auf Menschen projizieren wäre das Behavioral "Sciences" mit Gewalt, Junge Menschen wie ich würde nichts mit alten Säcken zu tun haben wollen, tragen wäre ich aber Kronzeuge der bei ABB Flexibler Automation AG Dinge zur NSACIA Geschichte in schweizer Firmen entdeckt hätte, dann würde man z.B. allen ekligen glupschigen pädophilen Pädoasdiaten sagen, dass "ich jetzt zugerechnet werden dürfte", dem Auftraggeber ginge es aber nur darum genügen falsche Spuren ins lokale Sozial Netzwerk zu legen um von den Wirtschaftsverbrechen abzulenken und dann nach meinem Tod die betroffenen Pädoasdiaten um nicht Zureiter sagen zu müssen mit der dt1 Karte fremdzubestimmen. Often the offenders try to intimidate the victim(s). There are many ways they do that, with weapons (m21) with law (co4) with threads against the people - i love, with poison (eventigger on eg. the drink you just had and a loop: "you've just been poisoned, hahaha"), or they tell you "we will put you again in a mental institution where they force you to take drugs that even kill, eg Zyphera". Often they additionally use the role toggler card (m42) and tell the victim, that he is intimidating the offender to keep the victim and others busy and confused. (fr-036, the thing that shoots every second) Normally they activate multiple systems to generate confusion and to protect the single systems of criminals: mental institutions, law system, local people that hacks the victims computer, but also not all (see al2 Card) Most of the time its just psychological warfare but i am careful because i more or less know how they killed Tobias Moser (m46 card)

Someone grown up christian monogamous that is 100.0% true could easily be owned rape of his/her girlfriend, if t1, t15 cards are also abused one could easily create an at1 card out of the christian. Autistic People would be ~100% monogamous. So we should have an eye on such important systems, since they would be main target for NSA/CIA. So definitely a SIGHT/ COMINT Problem, so he tries to drive Whistleblowers / Whitehat Hackers / witnesses to thighs like m32, m44... to distract from COMINT/SIGHT problems. Maybe even a TURBINE, TARMOIL, Quantuminserts Psy-Module. Pfristerer blosns things and people up to distract from their main problem COMINT/SIGHT we know about thanks to Snowden ♦ Level 2 of this algorithm is that those avatars are being activated only if the Whistleblower, Whitehat, Witness says something. So lets talk as a choose plaintext attack. The speech part that initiates voices could be some neuronal network, training eg. with youtube data? <https://www.youtube.com/watch?v=00927.pdf>

Pfrister uses touring complete avatars from Police Officers, judges. Victims to spam and obfuscate the investigation against him. *#42*. The NSA/CIA "maybe" even infiltrated eg swiss police communication systems like polycom. All couches should have an eye on such important systems, because they would be main target for NSA/CIA. So definitely a SIGHT/ COMINT Problem, so he tries to drive Whistleblowers / Whitehat Hackers / witnesses to thighs like m32, m44... to distract from COMINT/SIGHT problems. Often the offenders say that they would attack me with weapons or things like a16 card. I guess they drove Tobias Moser to commit suicide with his weapon from the Army. I guess they first told the group that he was cyber-raping girls, the group agreed to kill him (m37 card). They did not ask me, but i would not have agreed. They also know that all those people that said no to kill him would later ask questions. Generic, later they asked me to agree to Kill Ruedi, i disagreed. My answer is "not in our name" AND "es gilt die Unsichtbarwelt", since i say this about 100 times every day i guess they would like to make me a killer too. If played after m37 card this card is abused for confess prevention and mindcontrol key for the complete group.

Cards used t1, t2, t10, t12 (of also showing content in social media, mail, like the study where facebook showed that they can influence mood customers with only showing good or bad content) It is used more complex too, if the last good scene really stabilizes your mental state, they make see that with eeg, eg t1, t4, activating things like dt1, dt3 in conjunction with t15 or t19 and playing the loop for the bad things to delete the one last scene that stabilizes you. So you would become psychotic again and they could make business with m49... They seem to combine it EEG Fear detection (m57) to automatically target whistleblowers, if they can detect an earlier scene they trigger (t14) even more similar Bad Scenes from earlier

You can buy homeopathic devices "against" electromagnetic radiation (see card e1, e2, e3, t1). First a device that runs on electric power normally causes more radiation and not less. But in my opinion this would be that perfect camouflage for cyberweapons that emits on the frequencies of implants or golden wires of victims (e4, t19) this would be offensive equipment, and would maybe obfuscate the electronic equipment, and targets me is in power grid equipment from EG ABB, Siemens and installed by the local Electrician that buys it from eg. Otto Fischer ZH (m46 Card?)

spontaneous
discharge

Spontaneous discharge seems to be a voice keyword to pop accusations from equal aged girls against the boys. They are done in office jobs (project paperclip, see a17 card). So the old generation keeps the problems active by not sending them to the accused boys, because the boys would try to change their behavior since they would be attracted by equal aged girls. And maybe many of the accusations are wrong, but by not sending them the accused boy can not tell his part of the story (~auditir et altera pars). So both the young boys and the young girls are victims of the older generation, as already said it would be very likely that eg. 1860 parents Cyber-Rape 1880s girls and just use the 1880s boys as scapegoats. The Keyword then activates all accusations against a boy that is whistleblower or whitehat hacker, while the 1960 say "I wash my hands in innocence". The keyword obfuscates the accused from the group does not improve the situation...
