

IT supporter Scapegoat

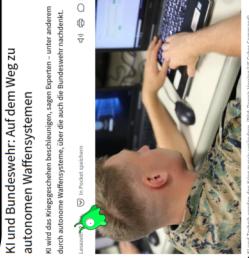

SC95

Year: ~????

Inventor: XXXXX

Computers are highly complex, nobody understands really what a CPU does in detail. Also Operating systems are complex, if you would take an average Operating System you would have at least 1GB, 16GB would be 500'000 A4 Pages that would weigh 250kg, so if you multiply that with 5 one would easily find out that nobody could handle that. Therefore the companies invented "The IT Supporter". In the early days they got a lot of money, today no company. So if something goes wrong or even someone dies because the Scapegoat and even sentenced. If you add the complete content that is handled with a computer it are more Exabytes than Gigabytes. So definitely nobody can handle that. But of course the 20 years old IT-Guy will be held responsible, even if he is the one with the smallest salary like i had in 1999 at ABB Flexible Automation, ZH Alstetten. And if you would tell what happens at such sort of companies they analyze the problem to keep the malware secret. Maybe even fast interacting Bot that eg interact with sexual integrity of equal aged women since CIA would "not" attack women.

What if the system controls the controllers for having a scapegoat to protect the system?

Like all archetypes think about the option that there are always good and bad people. (a14 card) so it could also have some angle archetypes that do bad things or that are beeing abused to do bad things. To derived the archetyp from a person from cloths, look or beauty leads often to wrong results, but if you talk to a person or if you really know a person it will be very hard for the CIA Neuralnet Software to make you think that this specific Satan is a Saint. They are getting better with the touring completeness to hide a persons real character and motivation, but since they use generic code, one single mistake well expose the truth, so listen carefully if they lose one archetype code you will find a lot of them and remember there are both sorts, good and bad (a14)

Borg Hive

Year: ~????

The Borg Hive with their borg-cubes (space-ships) that look somehow similar like q1 card is maybe not evil as shown in Star Trek. Or at least you could implement a good borg collective like **jerom Domburg** in his **Tamagochi Singularity** (https://www.youtube.com/watch?v=3_e-cJ1-Gs)

So the question would be why did Star Trek discredit those cubes as collectively bad and why they are showing the Federation (that is a military system) as the good people, with weapons, uniforms, hierarchy that's the reason why we question the view of Eugene Wesley „Gene“ Roddenberry.

The NSA or better the CIA attacks not only the whistleblowers, they also attack their girlfriends, their family (as we seen with Jacob Applebaums mother) and their friends. The word **WhistleBLOWER** has an eventtrigger on it, that pops the word **BLOWJOB**. And blames the whistleblower for watching "BLOWJOB Porn". I personally hate blowjob porn and never click on that crap. They eg. put old people virtually in the bed of the girl of the whistleblower and says the people: "She must Payback his sins" even if he had already paid back and 100'000 views with only likes and no dislikes. Karma is a Bitch ($\Sigma M=0$). So it's not the whistleblower that Cyber-Rapes or makes the people Cyber-Rape his girl. It's the people to control Baby. **Friends worst case would play m37 -> dt1 Card Combination**

Assassin

at1

Year: ~????

Inventor: XXXXX

Islamophobe "christianist" Terrorist. Run amok against 77 innocent young victims. As far as i could find out he was some sort of a "home child", "Street child" where one can only speculate that he was formed to an assassin with eg. Technology Cards *+. His manifest was "symbol minded"; so i guess that it was some sort of symbol language they used. Maybe combined with legal or illegal drugs, maybe only in the beginning to set the base stimulus-response-habits. If this hypothesis is true, then the people that planned to kill the 77 victims is still free and plans maybe the next assassination. And the chances to find evidence on his devices or the devices of his neighbours is quite small because those people would assassinate innocent people as a profession. Gayle Epstein "customers" can be activated as terrorists or more likely that they would use younger people to do such things, eg the equalaged partner of their victim(s). m38 -> c06 -> m44 or at1
