

## EventTrigger

Inventor: ????????

Year: ~?????

Specifc Events can trigger Actions. GPS Data, Data from acceleration sensors in handles (for example specific roller coaster) Events could be Sounds, turning on Light-Switch (maybe evaluated by smartmeter and the a list of what device uses how many watts, images, Automatic Behavior Recognition, websites (urls), Buttons or Mouse gestures on a computer, Handy or even if you draw a circle with your hand in the air. One can recognize events with AI (Pattern Recognition, Deep Learning,...)

For Example if Jürg S. would have fired illegally with a weapon, this event would have been recorded and caused

an event in a Gunfire locator system [1]. Concerning Urs B. (statement not verified yet) are the 1960s those who

programmed the triggers against marc jr landolt, after they programmed those triggers they run in auto-pilot mode and they cant delete it (auto-pilot = allegation)

## Fill-Gun

Inventor: XXXXX

Year: ~?????

Fill-guns are sold as a Ring on a chain, for example in Tolkien's "Lord of the Rings". In fact would be black box with socket and reset button to delete the keys on fill-gun. (Hopefully one has implemented an enhanced delete function) If you put fill-gun into Military-Radio (SE235, or T25 / T26) with frequency hopping the Cryptological Keys are loaded and radio would join to Military Network. Frequency hopping would allow to transmit to golden wires (e4) in the body. **Main question would be, if the fill-gun loads a radio, where are the fill-gun loaded.** Afalk Urs B. told me once that the Zurich Insurance has two specially secured terminals. Male Lobsters (b1b) tend to show off with objects of power to compensate their low self-esteem. in Bière an officer also showed off his Fill-Gun proud. / We guess that the Fill-Gun gives the owner access to all owned soldiers.

## CIA MAINFRAME

Inventor: ??????

Year: ????

... it installs all the nasty cards to the people in Switzerland "Central" "Intelligence" Agency. First it would not be central but distributed, second it would maybe not be that intelligent. It seems that CIA begins to blow up his PsyOps after one found that PsyOp creates multiple Death Circles (see most cards) It would likely, that the PsyOps have contacts to the CIA network. \*CYBER Blitzkrieg\* (we translate what the CIA would like to say, it are the >>>Nazis<<< um the Germans and no the cia does not actively obfuscates qfire, quantum inserts, TURBINE and TARMOLI) But we guess that there are some sort of batch jobs that owns systems globally, not only computers or mainframes, but also routers, handies or the Swiss INTAF. Who writes the interfaces? Kemberos? We need to find out what devices can access Stimcoevier, Neuralink... Wrist case most end user devices have some sort of SDR devices that can access t\* cards. In this case we need to find out what devices, second thing what we could do is preventing things like NROL-39 Kraken.. third thing we can do is to teach people Psychology

DELETED SCENES

Inventor: ??????

Year: ~?????

Some military people their power to force a woman into marriage. Weapons are not only Guns or Tanks, also having access to eg. Financial Systems, doctors, degree, psychats, degree, destroy the live or hunt down eg the brother of the women he wants to rape. In Switzerland parmy industry did drug experiments with Verdingkinder (Children without Parents). So far not public known is that they also tested things like Stimcoevier or Neuralink. Today all people in Switzerland seem to have such interfaces. Therefore there must be a backbone and we guess that this would be the Military Fiber Backbone. When i asked the Schulkommandant of Wartental Wangen: "What is the military fiber backbone for?" I was not sure that there is one. Social engineering he said only "For marching orders only..." Some Militaries intentionally let their soldiers force woman in marriage, if they do this with secret technology the military can easily force them to **defend this secret**, otherwise her women could prove that she was forced to marry the soldier, so they let the soldiers intentionally abuse it: female Victims would not get support from the justice system, they would try to destroy the military and the justice. Even on always 88 Virgins (Seductive Coercion), but if he would fulfill the false promise the CIA would loose influence. Der Weg war unsont, leider...

## EEG / OPENBCI Electroencephalography

t4

Inventor: Hans Berger

Year: ~1929

EEG was originally developed by neurologist Hans Berger. The Brain Computer Interface is an EEG that recognises patterns of brain currents with software (pattern recognition, AI, Deep Learning) and can activate events e.g. to start the lot-toaster or more worse things like flushing your brain or starting a SuicidedeathBot (card b4, a16). Today with more computing power, there are much more possibilities if the interface is bidirectional things could become a Self-fulfilling prophecy, (see card c2).

Can be used as lie detector or to control computer games, read thoughts memory and read moods (stress / relaxation, eg. Neurosky MindWave Software)

## Nazi Mental Operating System

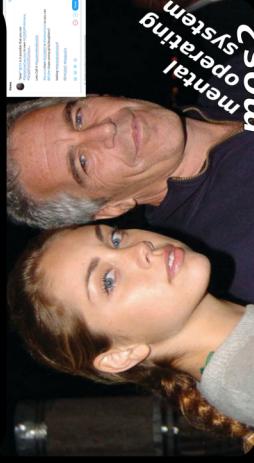

moss3

Inventor: xxxxx

Year: ~?????

Mental Operating System would be a almost coherent dogma room for lazy people. Those who create those systems try to make less mistakes as possible, so that the members don't have to much cognitive dissonances otherwise they would start to think by their own. But the creator adds backdoors and triggers to the dogma room, so he can control and trigger its members. There are antagonists dogma rooms, eg. the Nazi Science, Mental Operating System, they would maybe be incompatible (m50 card). In my opinion the Jewish Science has less bugs, but people with low intelligence would have less ambiguity tolerance. To show the Nazis where they have bugs could help to improve the situation. But to disassemble and and uninstable a complete MOS takes a lot of effort. If you find a younger Nazi that is on the wrong way but has not yet killed it would be ok to put him into jail, the only morally intact thing would be to let him / her that (she) does not makes to much stupid things, i guess Nazis are victims of parental abuse to install moss3 to use them as a Human-BOT.

Inventor: CIA / Fischer?

Year: ????

Important persons like politicians, scientists, parents... would maybe get an invitation to cyber-rape a young girl or boy as soon as they become somehow relevant. All those of them that bites in forbidden fruit can then be blackmailed with persons that would know. "Maybe" NSA / CIA datarotation systems play a role there. The CIA would maybe integrate only people with a criminal record like eg. pedophilia to keep them silent. It is very likely that if one eaten this forbidden fruit things like Suicide Death Bot would work better on the offender but also the victim. Even when the strain was only a Simulation things like m32, m44 would happen, and the offender would get off or m46, mso3 card obfuscates technology card t10, t12, pedophilia is a trigger topic that deactivates critical thinking because Pedophilia is a strong image, often only virtual. Played to make people eg. forget about things like Mainframe or in Switzerland for example the Military Fiber Network where possibly the Active Denial Systems or the complete Country is controlled over (Backbone), it would be likely that the CIA promises always 88 Virgins (Seductive Coercion), but if he would fulfill the false promise the CIA would lose influence.
