Guybrush Threeepwood

g2

Year: 1990

Role/Archetype

Guybrush Threepwood had the role of the hero in the Lucas Arts Game Monkey Island™.

In classic tarot he would be "The Fool" Card, actually too stupid to save the world, but has non-normal-distributed luck and his childish behavior gives him high values in the mayer-briggs dimension "Agreeableness" which would be perfect as a chess figure of satan, admiring Guybrush is stupid not telling that he can use him.

But ignore him, focus on the technology cards that produces real three-headed terrorist-monkey!

Le Chuck

g1

Year: 1990

Role/Archetype

LeChuck has the role of the bad guy in the Lucas Arts Game Monkey Island™.

This archetype is missing in C.G. Jungs Theory: "The older bad sibling"-Archetype, or something like a "evil father"-Archetype who often mistreat others. Or the role of an "always drunken father"-archetype. But in fact often the oldest children suffer the most pain, but a14 card maybe applies too

[1] [1] Was die Amis der CIA können, können wir schon lange! Schaut mal, ein dreiköpfiger Terroristen-Affe!! ! three-headed terrorist monkey! (Unheard: focus on the three-headed monkey!)

If you would have something like Neuralink or US4877027 and Windows tells you, click here and an innocent person will die, or mouse gestures "if you draw a V with your mouse" [dx/dt | dy/dt] then a chinese person you know will die. You maybe would not do this. But if someone adds, "this should technically not be possible" and is illegal, you would need to test that to check that nobody else goes into this trap. Maybe you really killed someone. Since you don't know this person (German: kein Motiv) and Windows was sold as kids-toy as Weapon you maybe just the scapegoat. Maybe people killed Muslims on Windows so the "Colateral Murder" Video would recruitize 16Mio People for drawing this damn V on Windows (m50 card).

Unknown Genius and those who have not really killed the victim but feel guilty too would help the real murderer to obfuscate, spam, hide all evidence that could lead to the murderer or its network.

After dt1 card where i would have killed that i dont know and where i dont have a intentional motive since unknown (scapegoat) they now say "You're drawn V's on Windows NT Computer." That prevented other users from going your path since this i planted booby traps against their sexual integrity, it's now legitimate to do this with you, too and against your sexual integrity" In fact this would be just a habit that was programmed. Technically it would be something like the 1960s movie about mindcontrol and gasmotsors that gave incentives if i've drawn a V with the mouse, but no orgasm. Saying today that it is legitimate to do that with me too, because i did also would just prevent people to find the person who programmed this habit at ABB Flexible Automation AG in 1999 on a Windows NT computer, so possibly Windows / Hardware Builtin and the boy that was not bugged just named as the person who planted the traps, but in fact he is just scapegoat....
