

Locked Notes

Inventor: **xxxxx**

Year: ~???

They can lock notes you made. They know maybe about the notes because eye1 card. Algorithm would be something like:

- Neighbour knobs on wall & at the same time pain in the eg. in the chest implant is activated.
- induced rage card, eg. if you use electronic device
- loop recorder { do something else }
- loop recorder { begin with the first, no the second ... }
- pain frontal lobe enables

- go through all register cards in browser!!!! (a17 card)

- drink something / eat something / smoke (smoke1 card)

-> so maybe it would make sense to work on the notes....

carrot (German: Zuckerbrot)

m79

Inventor: **God**

Year: ~-BC

German: Zuckerbrot und Peitsche. The Brain tells "Child", you have to eat that again (because sugar has a lot of energy) so you want more sugar/carrots. Unfortunately, it is also possible, to use the carrot (or maybe money) to lead the child into the wrong direction: for example, if someone would reward it, if brother pulls the little sister at her hairs, this would a bad stimulus/habit too. Parents who would do such crap would deny the existence of Behavioral Sciences"...

You get "sweets" almost in every store, so the kid learns early to consume at the sugaramed salesmen that would argue, that he is Zaccphaeus, chief tax-farmer and would claim that he is entitled take the money for carrots.

Hacker Ethics

* Access to computers—and anything which might teach you something about the way the world works—should be unlimitted and total. Always yield to the Hands-On Imperative!

- * All information should be free
- * Mistrust authority—promote decentralization
- * Hackers should be judged by their hacking, not criteria such as degrees, age, race, sex, or position
- * You can create art and beauty on a computer
- * Computers can change your life for the better

2. Parent 1 spends time with Kid 1
3. Kid 1 stops with random things and is lucky that Parent 1 plays with him / her.
4. Kid 2 thinks it would be existentially to be part of this group (Kid 1 & Parent 1) too
5. Parent 1 plays with Kid 2 too.
6. Kid 1 now thinks that it is a threat to his existence
7. maybe therefore Kid1 is begin to be evil to Kid2)
8. Parent 1 tries to make them play with each other or as a group of three
9. **technology** (it's card) makes Kid1 focus on Objects (m2 card) and so the **problem** stays unsolved
10. Kid1 & Kid2 dont learn to 8. -> goto 1
- 10b. Additionally the parents) would be scapegoats for this possibly technological induced problem, eg. b1 & t1 Card.
11. by the age of 20+ one would play cards m327=dt1?7

After the classic course through the gymnasium (> 5 years) and about 10 years in a random university, one gets maybe a masters degree or the doctor's dignity. Requirements seems to be at least some random doctoral thesis in the field of study, and in Computer Science maybe Rank 50 in Battlefield BC2 is also required but unsure which of both is essential... Zombi/BOT Broadcast "maybe" Personalized

m115

Inventor: **xxxxx**

Year: ~???

The Zombies or Bots seem to have some sort of **Broadcast Message** Function that makes them storm the place where the young people that dont want to sell their soul to satan are. Eg. in Shopping Malls, Parks, almost everywhere. The Zombies seem to dislike rain and are allegedly mostly Cyber-Raping kids during the night, so doing your bicycle tours at night is (at least as a man) therefore a good idea. Broadcast message that works that good would imply that they trust their neuralink interface, because it leads them to "Food". CC: OpDeathEater...

IMO "Headshot" just means to explain the Zombies in the situation (**Situation Hacking**) what they just cause.

Blessings (eg. Ultra-Violet or Acid)

IMHO the criminals use Violence, Posion, Acid and such things to distract people like me that asks "to many" relevant questions. If I am confronted with a "burned face" they transmit a lot of misimpression(s) that is "used" later to steer me into a wrong direction. It makes also paranoid, depressed (m94 card) and **causes me to concentrate less**. I guess they did this also with the people that asked questions if I'm the bad guy, and that led them think that I am the criminal, since they question me and are therefore being attacked, then it would completely make sense to believe that I am the offender or the criminal. But just saying "burned face" = innocent would also be wrong, see a14 card, unknown: at least 3 "use cases" for violence a). violence against people that question a **scapgoat**, would make the scapgoat look more guilty

b) violence against whistelblower, make him do mistakes c) if a **criminal** would order violence, against himself to make him look more innocent

Rapist TERRORIST (Female ❤)

Maybe the m41 card is played on both, for creating a antagonizing situation (m50 card). If I37 putting all the rapists pictures where Marcj was made drunk and then driven to hug random man or woman? Pivot Element in fake evidence? The male Rapist Terrorist did not break his promiss to be true forever, so if the female rapist terrorist broke the promiss, took another... married... kids it would be the duty of the family of the female rapist terrorist to the male "Rapist terrorist" is isolated, suicida, and will leak everything the **NSA/CIA** for killing, CIA will pay 10 Billion \$ to Urs and Martin for killing or "suiciding" Marcj and Urs will be hero. We suggest that Male and Female Rapist Terrorist have their last kiss. So the untrue Rapist terrorist will kill the true Rapist terrorist and it will be on all media to prevent this sort of Terrorism in future. After 17 Years of Cyber Terrorism against marc ir landolt based on what the Family Blum, WalterMerZweg 6, Aarau did in 2002 with him it is ok that he goes, marc if schutz kleine
