maybe one could derive the size of the attacking group by the size \* IQ of the defending group or maybe one could derive also the size of the attacking group if the defending group would count the number of the "you son of a b\*\*\*\*" per Minute

I have often the situation, that the system begins to match things normally do not match in my worldview / mainframe. For example Apple does normally not match ball (similarity: 0.5) since my brain would match above 0.8. There are times where the parameter is lower so ball and apple matches though. I guess this is not a cyber attack, **they** just link small kids that are less differentiated to me. But maybe they were mistreated a while before, **so it could be a pedophile** **pedophile** from me if i would touch this part of your psyche or answer you such things because you are much younger."

## big systemchanges in little time as Psychological Warfare

The principle from m88 card where we suggest not to do big system changes in little time the old people use explicitly for psychological warfare. For example let us play with equal aged people on the communication systems, and the old people sees that we have a harmonic discussion then he seems to enjoy blowing up the group of equal aged kids or equal aged young people.

## "For All" for personality trait (math)

m141

Year: ~????

People tend to generalize. Of course there are things that apply to all cases, mostly in maths. One problem people often do is to generalize personality traits. Personality traits are often normal distributed, this would mean, that eg. 80% with that specific trait would fit into that specific group, but not 100%. So personality traits can't be used as proof or evidence in criminal cases. Also consider cards t21, a14, and that with "behavioral sciences" (= "white" Torture) people can be forced to do things they otherwise would not do. Even the  $\forall$  people  $\in$  "Human Race" could possibly be wrong because some could be aliens or reptilians.

After the CIA most likely blew up the Twin Towers itself (maybe using t1 cards), George W. Bush declared accused countries media-effective to Terrorist-Countries (the Islamic areas are the oil-rich areas; source Prof. Dr. Daniele Ganser @Unibasel). In Western Media quite suggestive: "The War against terror is only beginning" **(T16s22qCXK)**

The US Army has begun to attack this countries of mostly innocent Muslims, their Women and their children. To expose such war crimes is dangerous as we seen in the case of Chelsea Manning, **honor your call Chelsea**. The weapon industry unfortunately has no mercy killing innocents for more profit and as far as I know Bush's family has a lot money in this "industry"

Guiltless been thrown out of the University, then they put Marcir in a Pottery course, which was sold as a "good" lesson to correct his (non-existent) arrogance, de facto it was psychological warfare to breakpoint! Marc Jr with pointless works: "go, do a bit of crafting you loser" = revictimizing of his childhood. 14 years before Snowdens Leaks Swiss Company Networks, which then was proven by Snowden in June 2013 irrevocably. TNX Technically the Network could be secured, but the Network installed also malware and backdoors in the psyche of relevant People like politicians, Shrinks, Computer Scientists, Science People. To fix that too will cause tears, therefore never forget the a15 Card

## Drugs = Fixation (psychology)

If one consumes drugs it has definitely influence on the neuro-endocrine system of this person. But things like accessing other peoples, dissociating them, attacking them virtually is possibly just the mainframe that detects the changed neuro-endocrine system and gives additional access rights on t1, eye1... Cards and the mainframe it is attached to. Drugs also deactivates critical thinking, and the **mainframe will store of course the things to blackmail the Drugs user later on**. If one consumes Drugs he will maybe have benefits for a short while, but aslong as he does not confess he would be owned and forced easily to do things he otherwise would not do. Even the  $\forall$  people  $\in$  "Human Race" could possibly be wrong because some could be aliens or reptilians.
